## CAPACITY

This is the official capacity for which the accommodation is approved by the Commissariat général au Tourisme of the Walloon Region, by the Ministry of the German-speaking Community or by the French-speaking Community Commission of the Brussels-Capital Region. This maximum capacity has strictly to be respected, even if the number of beds in the lodging description gives a higher capacity. "(4/6 p.)" would indicate that the lodging comprises rooms with beds for 4 adults and extra capacity (sofa-bed, folding bed, etc.) for 2 extra adults.

## EQUIPMENT (gîtes and furnished)

### KITCHEN

Only the major household electronic appliances (dishwasher, microwave, washing machine, freezer) are mentioned in the description. All gîtes and lodgings have a fridge and a cooker (indications are generally given about the power supply arrangements).

### HOUSEHOLD LINEN

Unless otherwise stated, the tenant must bring along sheets, duvet covers and hand towels.

### TV

This information indicates that the accommodation has a colour TV linked to cable network. The description makes it quite clear if the TV is not linked to the network or if it is a black and white set.

## PET

The presence of a pet has to be specified when booking. Only one animal is allowed per accommodation unit, unless agreed beforehand with the owner. Extra charge may be demanded.

## TOURIST TAX

It is generally mentioned under the lodging description, except if it wasn't known at the time of the development of this catalogue. Unless otherwise stated, the amount is to be paid per day and per adult.

## CHARGES, CLEANING AND TENANT DEPOSIT (gîtes and furnished)

**Consumption** of water, electricity, heating, wood, etc. has to be paid on the spot to owners. If the service charges are calculated on the basis of a fixed rate (ex: service charges € 6,00/9,00) the amount is to be paid per night/lodging. Unless otherwise stated, **carefully to be done by the tenant**, otherwise the latter can be obliged to pay a compensation to the owner. **The deposit has to be given in cash** to the owner or the latter's representative on arrival. This will be paid back after inventory of fixtures at the departure or within the 8 days after the departure.

## GUEST ROOMS (specificities)

Guest rooms are easily recognizable by a pink frame. This is the "Bed & Breakfast" formula. A family "table d'hôtes" meal can be served by some land lords. Rates are mentioned per night, per room or per person. Special rates (supplement for one night only, rebates for children...) can be mentioned under the price list. Unless otherwise stated, the landlord supplies sheets and towels. The arrival generally takes place between 16.00 and 18.00. The landlord must always be informed of a late arrival. The departure takes place after breakfast.

# The different accommodation options

© OPT / J.-P. Remy

## Rural gîte (GR)

This is holiday accommodation situated in a rural environment, which is in keeping with the local architecture. It provides every comfort and convenience for a short or medium-length stay. It can be of a small or large capacity (from 2 to 73 people) and can be rented for a weekend or for one or more weeks.

## City gîte (GC)

This is the equivalent of the rural gîte but is situated in an urban environment.

© OPT / Snapshot

## Farm gîte (GF)

The farm gîte is holiday accommodation situated on or near a working farm. It offers the same comfort and convenience and the same booking features as the rural gîte. It can provide activities on the farm.

© Maison du Tourisme du Tournaisis

## Furnished holiday (MV) or tourist (MT) accommodation

This is a more traditional type of holiday accommodation (chalet, bungalow, villa or apartment), which can be located in a rural or urban environment. It offers all the comfort and convenience of a rural gîte. In the German-speaking community, they use only the term 'furnished tourist accommodation' (MT).

## → Microlodging

A designation describing gîtes or furnished holiday accommodation with a small capacity (maximum 4 people), consisting of one multi-functional space without separate bedroom.

## → Large capacity lodging

A designation describing gîtes or furnished holiday accommodation with a capacity of more than 15 people.

© OPT / Snapshot

## Guest room (CH)

This is the 'Bed and Breakfast' option. Guest rooms are in the home of the owner, who gives his guests a warm welcome. Rooms often have en-suite facilities. In general, breakfast is provided and sometimes a 'table d'hôtes', a meal made using local products, is also available. Guest rooms can be booked for one or more nights.

© Ourthe & Somme

## Holiday village

A complex of lodgings grouped together on the same site, offering shared leisure and sports facilities. Holiday villages may also offer facilities such as a shop, cafeteria and restaurant on site. Organised activities can be arranged there, usually during the high season.

## Farm guest room (CHF)

Farm guest rooms are to be found on working farms. For breakfast and the 'table d'hôtes', products from the farm itself or from local producers are usually served.

## Guest house or farm guest house

This is a house or farm with at least 4 or 5 guest rooms (on the farm) of the same classification and classified in the new ministerial standards.

© OPT / Flenal

## Themed stays

Some gîtes or guest rooms meet the conditions of approval to receive a special designation according to the activity or specific facilities they offer. For more info, see 'Themed Stays' chapter on page 8.

## The Commissariat général au Tourisme

The Commissariat général au Tourisme (CGT) of the Ministry of the Walloon Region is responsible for all the regulations on tourism in the French-speaking Walloon Region. The "Rural and Farm Tourism" Department oversees implementation of the new decree of 18 December 2003 governing tourist accommodation and of the Walloon Government execution order of 9 December 2004.

In addition to providing assistance and advice, its missions include:

**AUTHORISING** the use of the following protected designations:

- **Rural gîte**: furnished accommodation fitted out in a building situated in a rural environment.
- **Farm gîte**: furnished accommodation fitted out in a building situated on a farm.
- **Furnished holiday accommodation**: furnished accommodation consisting of a chalet, bungalow, villa or flat or apartment.
- **Guest room**: furnished room in the owner's home.

**3 new designations**:

- **City gîte**: situated in an urban environment.
- **Farm guest room**: situated on a farm.
- **Guest house and Farm guest house**: group of 4 or 5 guest rooms or farm guest rooms.

**2 new qualifications**:

- **Microlodging**: maximum 4 persons and only one living room (no separate bedroom).
- **Large capacity lodging**: more than 15 persons.

The authorisation means that the accommodation has been inspected and that it meets the relevant standards.

The authorisation establishes the capacity of the accommodation. This capacity comes before the detailed description.

**CLASSIFYING** rural gîtes, farm gîtes, furnished holiday accommodation and guest rooms from 1 to 4 "épis" (ears of corn) or from 1 to 4 "clés" (keys). The classification sets a comfort rating designed to help tourists to choose a category to suit them; the accommodation has to fulfil assessment criteria and/or conform to certain points (see frame).

A new classification scale has come into force since 1 January 2005. The label "NN" will help you to find the accommodation meeting those new norms. Only these will display on their façades the new shields shown below.

**CONTROLLING THE QUALITY** of the accommodation: a periodic inspection allows the classification of the accommodation to be maintained or even upgraded or, if necessary, downgraded.

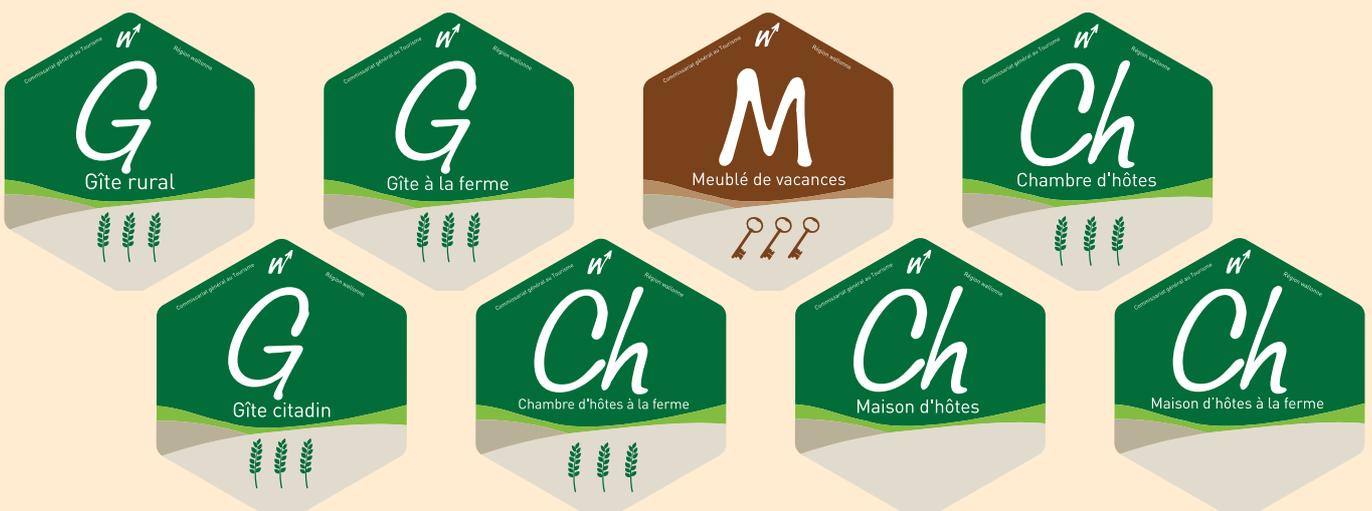

**HANDLING COMPLAINTS**: if any accommodation fails to meet any of a tourist's expectations with regard to the quality, comfort and conveniences established by the awarded classification, an inspection will be arranged in order to rectify the situation and take the necessary measures.

## Classification criteria of rural gîtes, city gîtes, farm gîtes, furnished holiday accommodation\*

- **1 épi / 1 clé : accommodation with a basic level of comfort and conveniences** provided with, at least, a living room area with heating, a kitchen area (hotplates, oven, fridge), bathroom/toilet facilities, bedrooms equipped and suitable for the capacity of the accommodation.
- **2 épis / 2 clés : accommodation with a good level of comfort and conveniences** which, in addition to the modern conveniences required for the "1 EPI / 1 CLE" category, must also have a coffee machine, a shower room, fitted heating in the living rooms and the shower room (the heating in the bedrooms may be of an additional nature).
- **3 épis / 3 clés : accommodation with a very good level of comfort and conveniences** which, in addition to the modern conveniences required for the "2 EPIS / 2 CLES" category, must have a freezer, a bathroom, (+ a second bathroom for 9 or more people), (NN : from 8 pers), a separate WC, (+ second WC for 7 or more people), fitted heating in all the rooms, (NN : dishwasher from 6 pers.), a colour TV, a lawn and parking area.
- **4 épis / 4 clés : accommodation with a luxury level of comfort and conveniences** offering a personal welcome and active leisure facilities as well as a wide range of modern conveniences, which, in addition to those required for the "3 EPIS / 3 CLES" category, must include a dishwasher, a washing machine, a central heating system, a telephone and a private garden (NN : one WC on each level by group of 4 pers. and one bathroom by group of 5 pers.).

## Classification criteria of guest rooms\*

- **1 épi : room with basic fixtures and fittings** equipped with heating and a washbasin; the other bathroom/toilet facilities may be shared
- **2 épis : room with a good level of comfort and conveniences** with modern conveniences superior to those of the "1 EPI" room. Breakfast is always provided there (NN).
- **3 épis : room with a very good level of comfort and conveniences** which must have en-suite bathroom/toilet facilities and very good quality bedding and modern conveniences superior to those of the "2 EPIS" room.
- **4 épis : room with an excellent level of comfort and conveniences** in terms of both fixtures & fittings and equipment, with modern conveniences superior to those of the "3 EPIS" room. Additional modern conveniences are provided there.

\* *Minimum criteria per category (non-exhaustive list), as other elements may be taken in account for the classification. In addition to other requirements, accommodation that does not fulfil one of the basic criteria of a category is classed in the category below. NN : New Norms of classification since January 1st 2005 (progressively applied).*

## French-speaking Community Commission of the Brussels-Capital Region

The Tourist Service of the French-speaking Community Commission of the Brussels-Capital Region is responsible for the application of the decree of 14th January 1999 about the approval of guest rooms and the authorization to use the appellation « guest room », and for the enforcement orders of it. It is in this scope authorized to grant subsidies for the creation and the modernization of guest rooms.

## The Ministry of the German-speaking Community

The German-speaking Community is located to the east of the Province of Liège. She includes nine German-speaking communes : Kelmis, Eupen, Lontzen, Raeren, Bütgenbach, Büllingen, Amel, Sankt-Vith and Burg-Reuland.

Within the Ministry of the German-speaking Community, the Directorate for Cultural Affairs is responsible for Tourism. As for holiday apartments for tourist purposes, only entities overseen by the Ministry for the German-speaking Community are entitled to use the appellation protected by the Community's Decree of November 20st 1992. A sign at the entry of the holiday apartment is a guarantee for the tourist that it has been inspected.

The classification of the holiday apartments from 1 to 4 " épis " is defined by the German-speaking Community's Decree of November 20st 1992. This classification is fully in line with the criteria defined by the " Commissariat Général au Tourisme " of the Walloon Region. The classification of holiday apartments takes the situation, the general impression, the fitting out, the equipment and the inner decoration of the lodging in account. The possible complaints or remarks are treated by the Ministry.

It only remains for us to wish you a pleasant stay in our region.

If you like staying in self-catering holiday cottages (gîtes) or guest house accommodation and would like **to enjoy a different experience of rural tourism**, try a themed gîte or guest house. Themed gîtes and guest houses fulfil the conditions of approval in order to be given a special designation depending on the specific activity or facilities they offer.

**Three themes** are offered: "Nature", "Fishing" and "Horse riding". Some activities have to be booked in advanced and are organised according to availability of the landlord's facilities. There may be a charge for activities and/or use of the facilities. If you contact the landlord, he will advise you immediately.

To combine your holiday and leisure time with sport or exploring, **try a themed gîte or guest house.**

## "Nature" accommodation

These types of accommodation offer environmentally-friendly tourism in which nature is protected. They are available in three main forms:

### The "Panda" gîte or guest house

This is a concept developed by the WWF in cooperation with local tourist associations. It offers a character dwelling situated in a region famous for the beauty of the surrounding countryside and for its protection. This type of dwelling has been built or renovated using natural materials. In addition, the landlord of a Panda Gîte cares about protecting the environment in the management of the accommodation (sorting waste, saving energy, etc.). With a love of the local area, he is also an expert in the countryside and natural world and often even a "nature guide" and can talk about it enthusiastically. He provides his guests with the appropriate observation and information equipment and material (binoculars, guides, etc.).

### The "Nature Discovery Activities" gîte or guest house

Situated in a region where nature is given priority, this promotes the wealth and diversity of the natural heritage while being environmentally-friendly. The guest will be able to make the most of various recreational activities relating to the surrounding countryside. The landlord will offer at least three discovery activities, at least one of which is individual to him. Other activities can be organised through the local authorities or, for example, through a nature guide.

### The "Organic-nature" gîte or guest house

This type of accommodation must be situated on a working farm, practising "organic" farming or at least "using environmentally-friendly farming methods". The activities offered relate to discovering this type of farming and quality products.

### The "Fishing" gîte or guest house

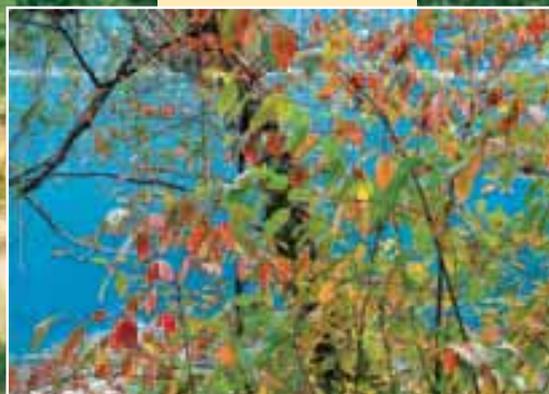

This is situated in a region where nature is given priority. Its landlord provides various opportunities for fishing, both through the variety of the fish that can be caught and through the fishing methods or sites. These are nearby or can be reached on foot. In addition, the landlord can advise his guest effectively on the types of fishing that are possible as well as on equipment, bait and regulations.

### The "Horse riding" gîte or guest house

The guest can find all the facilities he needs for accommodating his horse in a paddock or stall or can sometimes have the option of hiring horses. The landlord offers activities depending on his facilities or equipment, for example, introductory lessons (in an arena or on a free trail), excursions or even pony treks (by map or accompanied) according to a programme drawn up for the year or on request.

## Country lodging – ‘Gîte d’entreprise’, the alternative for your meetings and smaller seminars

Go for the new concept ‘Gîtes d’entreprises’ for the organization of your meetings

These gîtes for companies offer all the meeting facilities along with the charm and authenticity of country lodges.

A range of cultural, fun and sports activities can be organized to relax after the pressure of intensive working sessions.

Visit our website [www.meetingpointbelgium.be](http://www.meetingpointbelgium.be) for further information.

# Pleasures of the countryside

Accueil Champêtre en Wallonie, a real network of farmers and countryside dwellers who are enthusiastic hosts to their guests.

As a family or group, among friends or colleagues, for a day out or to stay for a while...

Step inside one of our farms...

There you'll discover a **warm welcome** where pleasure, traditions and flavours come together...

... expertise that our farmers and countryside residents will happily share with you.

## Explore our local treasures by following paths across the fields...

## *The art of living your leisure time to the full*

Covering the whole of Wallonia, our network of landlords guarantees you a warm, friendly and competent welcome.

The 'Fédération des Gîtes de Wallonie' offers you a host of accommodation options in perfect harmony with your requirements.

For one night, a weekend or a longer holiday, in a guest house or completely independently, let yourself be captivated by the wonderful charm of our local areas with their unique sense of place.

Set off to explore traditional villages, meet the local residents, enjoy a hearty breakfast or a delicious 'table d'hôte' spread

**The Fédération des Gîtes de Wallonie: the guarantee of an original and unforgettable stay!**

1100 choices of accommodation all over Wallonia

## Holiday villages

Holiday villages offer the same advantages as furnished holiday accommodation, but in addition, they have leisure and sporting infrastructures on the premises. What you lose in terms of independence and splendid isolation due to the proximity of other chalets, apartments or bungalows is compensated by the concentration of sporting and leisure facilities. The presence of a cafeteria, a restaurant or a shop in certain cases is also an advantage. Spread judiciously throughout the Ardennes, holiday villages invite you to stay as long as you choose at attractive prices for the whole family. An enjoyable discovery, new friends perhaps for a lifetime, a modern way to take your holidays.

### Prices, periods, validity

Prices appear under the description of each holiday village. They vary depending on the periods. Validity of prices is limited to the list of periods shown in the catalogue. Prices for periods not shown can be given, on request.

### Charges and Guarantee

These vary for each holiday village and are shown underneath the price tables. They have to be paid on the spot.

### Arrival and departure

Check the details of arrival and departure dates and times quoted by each holiday village.

### Household linen

Customers are normally expected to bring sheets and towels with them. However, they can also be hired in the majority of holiday villages (on application).

### Leisure facilities

Some leisure facilities are included in the price of the stay, while others have to be paid for on the spot. It is worth checking at the time of reservation and asking about the opening periods and hours.

# General conditions

The following terms have the following meanings in these general conditions:

- Traveler: the customer who concludes a contract for holiday accommodation.
- Service provider: the proprietor or manager of furnished property rented as tourist accommodation. The proprietor or the operator of a holiday village.
- Belsud Reservation: the booking centre of the Office de Promotion du Tourisme Wallonie-Bruxelles (OPT), state-approved foundation.

## 1. RESERVATION

A reservation for holiday accommodation by telephone, e-mail, fax or post constitutes a contractual undertaking. The specifications contained in the brochure and in the general sales conditions form an integral part of the rental contract and are thus accepted without reservations by the traveler who acknowledges to be fully informed of them before concluding the contract. Payment implies complete acceptance of these general conditions.

The reservation is confirmed:

- by delivery of a reservation form (voucher) by Belsud
- by payment of the amount stipulated on the reservation form by the traveler within the stated deadlines. If the reservation is made less than three weeks before the starting of the stay, the traveler is bound to confirm his reservation by returning the signed reservation form (voucher) to Belsud Reservation.

## 2. PAYMENT

The methods of payment are always indicated on the voucher delivered by Belsud, except when expressly otherwise agreed.

## 3. BOOKING CHARGES

A sum of 8,00 euro per reservation will be charged to the traveler (cancellation insurance included, refer article 11). The client who doesn't wish to take out a cancellation insurance must mention it at the signing of the booking contract. In that case, the booking charges will be reduced to 5,00 euros. The booking charges are NOT REFUNDABLE in the event of changing or cancelling/rescinding the reservation.

## 4. CHARGES, TAXES, CLEANING CHARGES, GUARANTEE

These are always paid locally by the customer to the service provider. The amounts are shown in the brochure.

## 5. VALIDITY OF PRICES

The prices mentioned in this catalogue are given in euro. They are valid from 30th March 2007 to 21st March 2008 inclusive (except in the event of indication to the contrary in the price tables). They include VAT.

## 6. RESPONSIBILITY

Belsud Reservation has acted in its capacity as a travel intermediary between travelers and service providers. The contract drawn up is deemed to have been concluded by the traveler. The traveler and the service provider are named on the reservation form, and the services provided and their price are also stated. Belsud Reservation is responsible for the good performance of the contract in compliance with the expectations that the traveler may reasonably have on the basis of the provisions of the travel intermediary contract. In addition, Belsud Reservation

is also responsible for errors made by its authorised representatives when carrying out their duties. This responsibility is governed by the Act of 16 February 1994 on the organisation and contracts of travel intermediaries. Belsud Réservation may under no circumstances be held responsible for fortuitous cases, cases of absolute necessity or by the fact of any person having nothing to do with the organization and the development of the stay. Belsud Réservation limits in any case its responsibility as regards material damage and the compensation for loss of possession of the travel, up to twice the travel's rate, as far as it doesn't provide itself the services comprised in the travel contract, according to the Act of 16 February 1994 on travel contracts.

## 7. CANCELLATIONS/RESCISSIONS

- A. In the event of cancellation/rescission by the traveler, which must be communicated in writing to Belsud on working days, the level of the compensation shall be settled between himself and the service provider. It is appropriate to apply the following conditions:
- from the reservation date to 56 days prior to the start of the stay: 25,00 euro.
  - from 55 to 30 days prior to the start of the stay: 10% of the accommodation price with a minimum of 25,00 euro.
  - from 29 to 15 days prior to the start of the stay: 50% of the accommodation price.
  - from 14 to 8 days prior to the start of the stay: 75% of the accommodation price.
  - from 7 days prior to the start of the stay to the day of the stay starting inclusive, or in the event of a no-show at the place of the accommodation: 100% of the accommodation price.
- B. If Belsud Réservation cancels the stay before its start, it informs the traveler as soon as possible. Belsud Réservation will however, whenever possible, propose an accommodation of equivalent or superior quality to that of the initially reserved lodging. In which case, the traveler has the choice between accepting the modification or canceling the contract without any penalty and with the refund of any amounts already paid. In the case of proven prejudice, the traveler may demand an indemnity for non-execution of the contract, except in the case of an act of God. In the case of an act of God, the traveler is only entitled to the immediate reimbursement of all amounts already paid.

## 8. CHANGES

A change of a reservation already registered with Belsud Reservation, like change of name, dates of stay or presence of a pet not mentioned at the booking, shall lead to a fixed payment of 15,00 euro. A change in the choice of accommodation or in the number of persons is considered as a cancellation/rescission (s. art. 7). Shortening the duration of a stay on the part of the tenant when he is already there shall not give entitlement to a refund except in the event of agreement with the proprietor.

## 9. COMPLAINTS

In the event of a complaint, the traveler must first go immediately to the service provider or his local representative. In the absence of such, he shall direct his complaint to Belsud Reservation within 5 working days, and must confirm his complaint by registered letter to Belsud

Reservation within one month of the stay ending. No complaints may be taken into consideration if this procedure has not been followed. Belsud Reservation shall not intervene in the event of disputes regarding the payment of sums to be paid locally to the service provider.

## 10. "COMMISSION DE LITIGES VOYAGES"

- A. A "dispute" materializes when a complaint cannot be dealt with amicably or when it has not reached a solution within four months of the end of the service, or the normal date of departure if the travel contract has never been executed.
- B. Each dispute materializing after the conclusion of a Belsud Réservation contract, relating to the present contract and in which the traveler is implicated, can be dealt with by the "Commission des Litiges Voyages a.s.b.l." at the request of the claiming party, with the exception of disputes relating to physical injury. If the defending party is a consumer, it may refuse the dispute to be treated by the Commission. To do this it must, within fifteen calendar days from the notification of the defending party of the introduction to the Commission of the file relating to the dispute, inform, by registered letter, the Secretariat of the "Commission Litiges Voyages" that it does not wish to have this case treated by the Commission.
- C. The procedure and the decision will conform to the "Règlement des Litiges" (Rules of Litigation) and to the dispositions of the Judicial Code in matters of arbitration (art. 1676 to 1723 included). The decision bounds the parties, without any possibility of appeal. A fee is due for dealing with a dispute; it is established by the "Règlement des Litiges".
- D. The use of these general conditions implies the acceptance of all rules and decisions established by the "Commission des Litiges Voyages a.s.b.l.", in particular the "Règlement des Litiges".
- E. The address of the "Commission des Litiges Voyages a.s.b.l." is Boulevard du Roi Albert II, 16 – 1000 Brussels.

## 11. INSURANCE

"Travel cancellation" insurance is included in the booking costs charged by Belsud Reservation (for the time-scales, see general conditions Art. 7) up to a maximum level of 400,00 euro, in the event of cancellation/rescission for one of the following reasons: death, accident or serious acute illness arising after registration of the reservation, either to the assured himself or to a close relative (member of the family up to the second grade), or to a travel companion who registered a reservation at the same time (except in the event of the exclusions provided by the company). This insurance covers on no account the holiday interruptions. The insurance company alone shall be responsible for paying the cancellation charges to the travelers. This insurance may turn out to be insufficient notably for accommodation in high season. The prices do not include:

- third party liability insurance
- fire insurance for the rental of furnished accommodation.

Concerning the tenant's fire insurance: it is the traveler's responsibility to contact his insurance company in order to check if he benefits a sufficient and appropriate coverage of damages.

The traveler is in any case responsible for every damage occurring by his doing.
